 - A. Jupiter
 - B. Mars
 - C. Venus
 - D. Mercury

(3 marks)

4. Read the different scenarios below, then for the three (3) persons listed, **indicate whether a 'push factor' or a 'pull factor' led them to Jamaica** by placing a tick in the spaces provided.

A. Chin Lee lived in Portland during the 19th century. He migrated from China to improve his living conditions.

B. Sue Yen moved to Jamaica from his hometown in China due to political instability.

C. Mei Ling left his family in 1900 and came to Jamaica because they were very poor.

Individual	Push Factors	Pull Factors
Chin Lee		
Sue Yen		
Mei Ling		

(3 marks)

5. "Without the atmosphere, the Earth would always be cold. For each of the following statements below, **tick (☑)** "support" if it supports the statement above OR "does not support" if it does not support the statement above.

Support Does not Support

The atmosphere contains gases that protect the Earth's surface from the Sun's harmful rays.

The atmosphere contains greenhouse gases which acts like the Earth's blanket.

The atmosphere contains gases that help to keep the Earth cool.

(3 marks)

6. Mr. Brown left Guyana in 1994 and migrated to Canada. A list of push and pull factors that could have contributed to him migrating to Canada has been listed below. For each factor listed, **tick (☑)** whether it would have been a push factor or a pull factor.

Pull Factors

Push Factors

Better medical Care		
Natural disasters in Guyana		
Lack of Job opportunities		
Improved Living Conditions		
High Wages		
Crime and violence		

(6 marks)

7. A primary economic activity is shown in the picture below. State which activity is taking place and TWO (2) ways in which this activity can benefit our country.

(3 marks)

8. Examine the picture below and identify TWO (2) types of pollutions. For each type of pollution, explain ONE (1) negative effect of this pollution on the environment.

Two types of pollution seen on the picture are :

_____ and _____

One negative effect of _____ pollution is

One negative effect of _____ pollution is

(4 marks)

9. The map of Jamaica below has a title, border, and other important features/elements. Other than the title and border, identify three (3) other elements seen on the map.

1. _____ 2. _____ 3. _____

(3 marks)

10. Using the word "people" and the phrase "Earth and how people interact with the environment", write a definition for the term **Geography**.

(2 marks)

11. Mars, Uranus, Venus, and Saturn are four planets in the solar system. Select the option below that shows the planets in the correct order in terms of their distance from the sun. (1 mark)

- a. Venus, Mars, Saturn, Uranus
- b. Mars, Venus, Uranus, Saturn
- c. Saturn, Venus, Mars, Uranus
- d. Venus, Saturn, Mars, Uranus

12. Many science fiction movies show the formation of the solar system and planets orbiting the sun. These planets can be classified based on their distance from the sun (inner, outer planets) and their composition (gaseous and terrestrial planets). In the table below, classify each planet by placing a tick in the appropriate boxes. **Please note that TWO (2) boxes must be selected for each planet.**

Planet	Inner	Outer	Gaseous	Terrestrial/Rocky
Mercury				
Saturn				
Earth				
Mars				
Jupiter				
Venus				
Uranus				
Neptune				

(16 marks)

13. Geography studies the natural features of the Earth as well as how humans interact with the environment. List the two branches of Geography.

_____ and _____

(2 marks)
